Question 1: What is the result of $30 / 44$? Explain your reasoning in detail.

Question 2: What is the result of $49 + 5$? Explain your reasoning in detail.

Question 3: What is the result of $5 / 40$? Explain your reasoning in detail.

Question 4: What is the result of $36 + 16$? Explain your reasoning in detail.

Question 5: What is the result of $32 * 49$? Explain your reasoning in detail.

Question 6: What is the result of $46 / 47$? Explain your reasoning in detail.

Question 7: What is the result of $6 + 32$? Explain your reasoning in detail.

Question 8: What is the result of $11 * 18$? Explain your reasoning in detail.

Question 9: What is the result of $23 / 25$? Explain your reasoning in detail.

Question 10: What is the result of $57 + 46$? Explain your reasoning in detail.

Question 11: What is the result of $37 - 38$? Explain your reasoning in detail.

Question 12: What is the result of $55 + 50$? Explain your reasoning in detail.

Question 13: What is the result of $55 - 15$? Explain your reasoning in detail.

Question 14: What is the result of $20 / 34$? Explain your reasoning in detail.

Question 15: What is the result of $62 + 4$? Explain your reasoning in detail.

Question 16: What is the result of $5 / 45$? Explain your reasoning in detail.

Question 17: What is the result of $58 / 48$? Explain your reasoning in detail.

Question 18: What is the result of $52 - 21$? Explain your reasoning in detail.

Question 19: What is the result of $80 + 25$? Explain your reasoning in detail.

Question 20: What is the result of $48 / 20$? Explain your reasoning in detail.

Question 21: What is the result of $37 - 48$? Explain your reasoning in detail.

Question 22: What is the result of $40 / 42$? Explain your reasoning in detail.

Question 23: What is the result of $6 - 25$? Explain your reasoning in detail.

Question 24: What is the result of $52 - 1$? Explain your reasoning in detail.

Question 25: What is the result of $94 * 11$? Explain your reasoning in detail.

Question 26: What is the result of $68 * 50$? Explain your reasoning in detail.

Question 27: What is the result of $71 + 47$? Explain your reasoning in detail.

Question 28: What is the result of $51 \div 40$? Explain your reasoning in detail.

Question 29: What is the result of $43 - 8$? Explain your reasoning in detail.

Question 30: What is the result of $85 + 26$? Explain your reasoning in detail.

Question 31: What is the result of $63 + 10$? Explain your reasoning in detail.

Question 32: What is the result of 89×42 ? Explain your reasoning in detail.

Question 33: What is the result of $5 \div 20$? Explain your reasoning in detail.

Question 34: What is the result of $43 + 38$? Explain your reasoning in detail.

Question 35: What is the result of $42 + 6$? Explain your reasoning in detail.

Question 36: What is the result of $69 \div 30$? Explain your reasoning in detail.

Question 37: What is the result of $68 \div 41$? Explain your reasoning in detail.

Question 38: What is the result of 34×7 ? Explain your reasoning in detail.

Question 39: What is the result of 26×9 ? Explain your reasoning in detail.

Question 40: What is the result of $61 + 45$? Explain your reasoning in detail.

Question 41: What is the result of 17×41 ? Explain your reasoning in detail.

Question 42: What is the result of $52 * 39$? Explain your reasoning in detail.

Question 43: What is the result of $79 + 14$? Explain your reasoning in detail.

Question 44: What is the result of $34 - 16$? Explain your reasoning in detail.

Question 45: What is the result of $94 / 15$? Explain your reasoning in detail.

Question 46: What is the result of $47 + 25$? Explain your reasoning in detail.

Question 47: What is the result of $99 / 2$? Explain your reasoning in detail.

Question 48: What is the result of $16 + 45$? Explain your reasoning in detail.

Question 49: What is the result of $20 + 33$? Explain your reasoning in detail.

Question 50: What is the result of $86 + 4$? Explain your reasoning in detail.

Question 51: What is the result of $42 - 35$? Explain your reasoning in detail.

Question 52: What is the result of $19 * 19$? Explain your reasoning in detail.

Question 53: What is the result of $22 - 16$? Explain your reasoning in detail.

Question 54: What is the result of $9 - 42$? Explain your reasoning in detail.

Question 55: What is the result of $6 / 13$? Explain your reasoning in detail.

Question 56: What is the result of $61 * 19$? Explain your reasoning in detail.

Question 57: What is the result of $8 + 11$? Explain your reasoning in detail.

Question 58: What is the result of $93 * 26$? Explain your reasoning in detail.

Question 59: What is the result of $55 * 12$? Explain your reasoning in detail.

Question 60: What is the result of $38 + 29$? Explain your reasoning in detail.

Question 61: What is the result of $41 + 12$? Explain your reasoning in detail.

Question 62: What is the result of $24 + 44$? Explain your reasoning in detail.

Question 63: What is the result of $96 + 39$? Explain your reasoning in detail.

Question 64: What is the result of $79 / 38$? Explain your reasoning in detail.

Question 65: What is the result of $24 + 5$? Explain your reasoning in detail.

Question 66: What is the result of $72 - 45$? Explain your reasoning in detail.

Question 67: What is the result of $55 + 17$? Explain your reasoning in detail.

Question 68: What is the result of $49 * 25$? Explain your reasoning in detail.

Question 69: What is the result of $68 * 21$? Explain your reasoning in detail.

Question 70: What is the result of $40 - 8$? Explain your reasoning in detail.

Question 71: What is the result of $74 / 2$? Explain your reasoning in detail.

Question 72: What is the result of $11 / 4$? Explain your reasoning in detail.

Question 73: What is the result of $12 * 21$? Explain your reasoning in detail.

Question 74: What is the result of $72 + 35$? Explain your reasoning in detail.

Question 75: What is the result of $59 / 45$? Explain your reasoning in detail.

Question 76: What is the result of $14 - 24$? Explain your reasoning in detail.

Question 77: What is the result of $75 * 32$? Explain your reasoning in detail.

Question 78: What is the result of $42 - 10$? Explain your reasoning in detail.

Question 79: What is the result of $52 * 9$? Explain your reasoning in detail.

Question 80: What is the result of $3 + 35$? Explain your reasoning in detail.

Question 81: What is the result of $41 / 44$? Explain your reasoning in detail.

Question 82: What is the result of $86 * 41$? Explain your reasoning in detail.

Question 83: What is the result of $48 - 2$? Explain your reasoning in detail.

Question 84: What is the result of $21 - 46$? Explain your reasoning in detail.

Question 85: What is the result of $64 * 36$? Explain your reasoning in detail.

Question 86: What is the result of $61 - 23$? Explain your reasoning in detail.

Question 87: What is the result of $5 * 21$? Explain your reasoning in detail.

Question 88: What is the result of $6 + 40$? Explain your reasoning in detail.

Question 89: What is the result of $27 / 41$? Explain your reasoning in detail.

Question 90: What is the result of $70 - 44$? Explain your reasoning in detail.

Question 91: What is the result of $66 + 48$? Explain your reasoning in detail.

Question 92: What is the result of $85 * 28$? Explain your reasoning in detail.

Question 93: What is the result of $71 - 35$? Explain your reasoning in detail.

Question 94: What is the result of $34 + 43$? Explain your reasoning in detail.

Question 95: What is the result of $93 - 43$? Explain your reasoning in detail.

Question 96: What is the result of $75 / 32$? Explain your reasoning in detail.

Question 97: What is the result of $16 + 30$? Explain your reasoning in detail.

Question 98: What is the result of $45 + 20$? Explain your reasoning in detail.

Question 99: What is the result of $67 / 29$? Explain your reasoning in detail.

Question 100: What is the result of $94 - 18$? Explain your reasoning in detail.

Question 101: What is the result of $72 / 10$? Explain your reasoning in detail.

Question 102: What is the result of $63 * 48$? Explain your reasoning in detail.

Question 103: What is the result of $22 + 36$? Explain your reasoning in detail.

Question 104: What is the result of $89 + 47$? Explain your reasoning in detail.

Question 105: What is the result of $51 * 44$? Explain your reasoning in detail.

Question 106: What is the result of $58 / 42$? Explain your reasoning in detail.

Question 107: What is the result of $62 * 49$? Explain your reasoning in detail.

Question 108: What is the result of $65 * 11$? Explain your reasoning in detail.

Question 109: What is the result of $29 - 46$? Explain your reasoning in detail.

Question 110: What is the result of $14 - 2$? Explain your reasoning in detail.

Question 111: What is the result of $68 * 19$? Explain your reasoning in detail.

Question 112: What is the result of $86 - 38$? Explain your reasoning in detail.

Question 113: What is the result of $48 + 40$? Explain your reasoning in detail.

Question 114: What is the result of $90 / 22$? Explain your reasoning in detail.

Question 115: What is the result of $69 - 12$? Explain your reasoning in detail.

Question 116: What is the result of $26 + 44$? Explain your reasoning in detail.

Question 117: What is the result of $35 / 35$? Explain your reasoning in detail.

Question 118: What is the result of $18 - 1$? Explain your reasoning in detail.

Question 119: What is the result of $87 + 32$? Explain your reasoning in detail.

Question 120: What is the result of $6 + 47$? Explain your reasoning in detail.

Question 121: What is the result of $2 * 12$? Explain your reasoning in detail.

Question 122: What is the result of $1 / 27$? Explain your reasoning in detail.

Question 123: What is the result of $95 + 48$? Explain your reasoning in detail.

Question 124: What is the result of $69 + 34$? Explain your reasoning in detail.

Question 125: What is the result of $44 + 38$? Explain your reasoning in detail.

Question 126: What is the result of $93 * 44$? Explain your reasoning in detail.

Question 127: What is the result of $38 - 50$? Explain your reasoning in detail.

Question 128: What is the result of $53 - 3$? Explain your reasoning in detail.

Question 129: What is the result of $70 + 37$? Explain your reasoning in detail.

Question 130: What is the result of $6 - 1$? Explain your reasoning in detail.

Question 131: What is the result of $31 * 16$? Explain your reasoning in detail.

Question 132: What is the result of $16 * 18$? Explain your reasoning in detail.

Question 133: What is the result of $45 + 37$? Explain your reasoning in detail.

Question 134: What is the result of $22 + 44$? Explain your reasoning in detail.

Question 135: What is the result of $93 / 44$? Explain your reasoning in detail.

Question 136: What is the result of $38 + 7$? Explain your reasoning in detail.

Question 137: What is the result of $81 / 42$? Explain your reasoning in detail.

Question 138: What is the result of $37 + 33$? Explain your reasoning in detail.

Question 139: What is the result of $3 + 47$? Explain your reasoning in detail.

Question 140: What is the result of $11 \div 8$? Explain your reasoning in detail.

Question 141: What is the result of $47 + 21$? Explain your reasoning in detail.

Question 142: What is the result of 47×27 ? Explain your reasoning in detail.

Question 143: What is the result of $26 + 40$? Explain your reasoning in detail.

Question 144: What is the result of $42 \div 5$? Explain your reasoning in detail.

Question 145: What is the result of $45 \div 14$? Explain your reasoning in detail.

Question 146: What is the result of $74 - 50$? Explain your reasoning in detail.

Question 147: What is the result of 35×26 ? Explain your reasoning in detail.

Question 148: What is the result of 3×19 ? Explain your reasoning in detail.

Question 149: What is the result of 93×6 ? Explain your reasoning in detail.

Question 150: What is the result of $53 + 2$? Explain your reasoning in detail.

Question 151: What is the result of $44 \div 9$? Explain your reasoning in detail.

Question 152: What is the result of $63 \div 28$? Explain your reasoning in detail.

Question 153: What is the result of $60 - 31$? Explain your reasoning in detail.

Question 154: What is the result of $92 \div 3$? Explain your reasoning in detail.

Question 155: What is the result of $29 \div 35$? Explain your reasoning in detail.

Question 156: What is the result of $17 + 39$? Explain your reasoning in detail.

Question 157: What is the result of $23 \div 9$? Explain your reasoning in detail.

Question 158: What is the result of 89×38 ? Explain your reasoning in detail.

Question 159: What is the result of $45 + 9$? Explain your reasoning in detail.

Question 160: What is the result of $22 - 12$? Explain your reasoning in detail.

Question 161: What is the result of 74×36 ? Explain your reasoning in detail.

Question 162: What is the result of 41×27 ? Explain your reasoning in detail.

Question 163: What is the result of 28×42 ? Explain your reasoning in detail.

Question 164: What is the result of $13 \div 45$? Explain your reasoning in detail.

Question 165: What is the result of $36 \div 12$? Explain your reasoning in detail.

Question 166: What is the result of 4×3 ? Explain your reasoning in detail.

Question 167: What is the result of $94 - 45$? Explain your reasoning in detail.

Question 168: What is the result of $1 / 14$? Explain your reasoning in detail.

Question 169: What is the result of $5 - 13$? Explain your reasoning in detail.

Question 170: What is the result of $91 + 1$? Explain your reasoning in detail.

Question 171: What is the result of $46 + 31$? Explain your reasoning in detail.

Question 172: What is the result of $78 + 17$? Explain your reasoning in detail.

Question 173: What is the result of $8 + 16$? Explain your reasoning in detail.

Question 174: What is the result of $38 / 28$? Explain your reasoning in detail.

Question 175: What is the result of $94 + 26$? Explain your reasoning in detail.

Question 176: What is the result of $89 + 49$? Explain your reasoning in detail.

Question 177: What is the result of $19 / 15$? Explain your reasoning in detail.

Question 178: What is the result of $56 - 25$? Explain your reasoning in detail.

Question 179: What is the result of $81 / 36$? Explain your reasoning in detail.

Question 180: What is the result of $10 - 19$? Explain your reasoning in detail.

Question 181: What is the result of $100 - 40$? Explain your reasoning in detail.

Question 182: What is the result of $63 - 42$? Explain your reasoning in detail.

Question 183: What is the result of $14 - 12$? Explain your reasoning in detail.

Question 184: What is the result of $65 - 39$? Explain your reasoning in detail.

Question 185: What is the result of $32 / 26$? Explain your reasoning in detail.

Question 186: What is the result of $81 * 49$? Explain your reasoning in detail.

Question 187: What is the result of $13 * 29$? Explain your reasoning in detail.

Question 188: What is the result of $53 / 12$? Explain your reasoning in detail.

Question 189: What is the result of $98 + 12$? Explain your reasoning in detail.

Question 190: What is the result of $5 * 35$? Explain your reasoning in detail.

Question 191: What is the result of $47 / 12$? Explain your reasoning in detail.

Question 192: What is the result of $48 + 15$? Explain your reasoning in detail.

Question 193: What is the result of $84 + 27$? Explain your reasoning in detail.

Question 194: What is the result of $51 + 2$? Explain your reasoning in detail.

Question 195: What is the result of $15 / 27$? Explain your reasoning in detail.

Question 196: What is the result of $61 + 48$? Explain your reasoning in detail.

Question 197: What is the result of $66 - 9$? Explain your reasoning in detail.

Question 198: What is the result of $81 + 37$? Explain your reasoning in detail.

Question 199: What is the result of $29 + 11$? Explain your reasoning in detail.

Question 200: What is the result of $84 * 50$? Explain your reasoning in detail.
